

CHERRADI NABIL MOUHSSINE

Software Engineer | Competitive Programmer

+212634040121 | hi@cnabil.dev | Tétouan, Morocco

LinkedIn: cnabildev/ | GitHub: cnabildev | LeetCode: cnabildev/

PROFESSIONAL SUMMARY

Full Stack Software Engineer with 7+ years building enterprise web applications. Delivered 50+ production applications to 30+ clients using TALL Stack and React. Competitive programmer (600+ problems solved) with strong DevOps expertise (Docker, CI/CD, AWS). Specialized in scalable architecture and performance optimization.

CORE COMPETENCIES

PHP | Laravel | Livewire | WordPress | Node.js | JavaScript | React | Next.js | TailwindCSS | Figma | Git & GitHub | Docker | CI/CD (GitHub Actions) | AWS | MySQL | PostgreSQL | Redis | MongoDB | PHPUnit | Pest | Playwright | Jest | RESTful / GraphQL APIs | Microservices | TDD | Agile/Scrum | Adaptability | Critical Thinking | Collaboration | Time Management

PROFESSIONAL EXPERIENCE

Software Engineer - *Freelance via UpWork*

January 2024 - Present

Location: Remote

- Delivered custom software solutions aligned with client requirements
- Built scalable web applications using modern technologies
- Ensured scalable code architecture and consistent code quality
- Implemented CI/CD pipelines and DevOps best practices

Full Stack Developer - *CodeNord*

January 2020 - January 2024

Location: Morocco

- Built full-stack web applications with optimized database and API integration
- Delivered responsive, scalable features using Laravel and React
- Implemented microservices architecture and RESTful APIs
- Optimized application performance and database queries

PHP Developer - *DigitalX*

January 2013 - January 2020

Location: Rabat, Morocco

- Created RESTful APIs, secured backend services, and optimized MySQL queries
- Developed WordPress themes and plugins for client projects
- Participated in agile ceremonies and team-based code reviews
- Implemented security best practices and performance optimization

TECHNICAL SKILLS

Backend

PHP, Laravel, Livewire, WordPress, Node.js

Frontend

JavaScript, React, Next.js, TailwindCSS, Figma

Devops

Git & GitHub, Docker, CI/CD (GitHub Actions), AWS

Database

MySQL, PostgreSQL, Redis, MongoDB

Testing

PHPUnit, Pest, Playwright, Jest

Methodology

RESTful / GraphQL APIs, Microservices, TDD, Agile/Scrum

CERTIFICATIONS

AWS Certified Cloud Practitioner (In Progress)

Amazon Web Services - September 2025

Software Engineer Certificate

Holberton School (by ALX) - February 2025

Agile Project Management

HP LIFE - January 2024

JavaScript Algorithms and Data Structures

freeCodeCamp - January 2023

Responsive Web Design

freeCodeCamp - January 2023

EDUCATION

Expert IT – Applications Intelligentes & Big Data

2026 - Expected TBD

FEDE (Fédération Européenne des Écoles)

European Bachelor's Degree in IT Development and Connected Systems

2025 - 2026

FEDE (Fédération Européenne des Écoles)

Software Engineer Diploma

2023 - 2025

Holberton School (by ALX)

IT Development Specialist Technician

2017 - 2019

OFPPT, Morocco

High School Diploma

2014 - 2017

Ibn Khaldoun High School, Morocco

KEY PROJECTS

Rapid Motors - E-Commerce Online vehicle registration

WordPress | REST API | React | PHP | WooCommerce

Developed a high-performance e-commerce platform for Rapidmotors, a leading vehicle registration service provider. The platform features real-time inventory management, multi-currency support, and advanced payment integrations to cater to a global customer base.

Carte Grise Plus - Vehicle Registration Platform

WordPress | REST API | React | PHP | WooCommerce

Built a comprehensive online vehicle registration service platform enabling users to complete administrative procedures digitally with automated document processing and verification.

Corsica Location - Vacation Rental Platform

REST API | PHP | Laravel | Stripe

Created a modern vacation rental booking platform for Corsican properties featuring advanced search filters, dynamic pricing, and integrated booking management system.

Engines Tech - Industrial Equipment Marketplace

WordPress | PHP | Figma

Developed a B2B E-Commerce for industrial engines and equipment with technical specification matching, quote management, and supplier network integration.

Kronacom - Digital Agency Portfolio

WordPress | PHP | WooCommerce | Stripe

Designed and developed a modern, high-performance corporate website showcasing digital agency services with interactive portfolio and client testimonials.

Ma Clé de Voiture - Automotive Key Service

WordPress | React | PHP | Figma

Built an online platform for ordering replacement car keys and remote controls with vehicle compatibility verification and appointment scheduling system.

Moroccan Goods - Artisan E-Commerce

WordPress | WooCommerce

Created a vibrant online E-Commerce connecting Moroccan artisans with global customers, featuring multi-vendor capabilities and international shipping integration.

Ola Pneus - Tire E-Commerce Platform

REST API | PHP | Laravel | PayPlug | LiveWire | Alpinejs

Developed a specialized tire e-commerce platform with advanced search by vehicle or size, installation partner network, and appointment booking integration.

Oli Valenti - Premium Online Boutique Fashion and Perfumes

Figma | Wix

Built an elegant e-commerce platform for premium olive oil products with storytelling features, subscription management, and gift customization options.

Pieces Autonome - Auto Parts Marketplace

WordPress | PHP | WooCommerce

Created a comprehensive auto parts e-commerce platform with VIN decoder, parts compatibility verification, and integration with multiple suppliers.

9 Senses - Luxury Natural Body Care

WordPress | PHP | WooCommerce

Designed a premium platform for booking exclusive experiences and luxury services with personalized recommendations and concierge-level customer service integration.

Carte Grise GP - Guadeloupe Registration Service

WordPress | REST API | React | PHP | WooCommerce

Developed a region-specific vehicle registration platform for Guadeloupe with tailored administrative workflows and local payment method integration.

Carte Grise MQ - Martinique Registration Service

WordPress | REST API | React | PHP | WooCommerce

Built a dedicated vehicle registration platform for Martinique featuring localized processes, document management, and integration with regional authorities.

Carte Grise 38 - Car Registration Service

WordPress | REST API | React | PHP | WooCommerce

Created a departmental vehicle registration platform for Isère (38) with local prefecture integration and specialized support for mountain region vehicles.

Carte Grise Auto Form - Auto Registration Form Builder

WordPress | REST API | React | PHP | WooCommerce

Built a white-label SaaS platform enabling automotive businesses to offer vehicle registration services through customized, branded form workflows.
